🔗 MuhammadTalalLiaquat

I completed an intermediate in Computer Science and a Web & Mobile App Development course focused on MERN stack Web applications. I trained at **Saylani Mass IT Training Institute** and completed a DBMS course at **NED University of Engineering and Technology**, gaining good skills in database design and MySQL optimization. My goal is to continue learning and to deliver good-quality work.

Skills

Front-end: React.js, Next.js, JavaScript, TypeScript, React Context API, Redux Toolkit, HTML5, CSS3, Tailwind CSS, DaisyUI, Bootstrap

Back-end: Node.js, Express.js, MongoDB, Firebase

Tools: Git (CLI)

AI Tools: Cursor , Claude code , Google AI Studio and ChatGPT

Software: MySQL , Power BI Desktop

Soft Skills: Team Collaboration, Detail Orientation, Problem Solving, Communication

Education

Board of Intermediate Education Karachi

Intermediate in Computer Science

Karachi, Pakistan

Sep 2022 – 2025

Board of Secondary Education Karachi

Matriculation in Computer Science, GPA: A

Karachi, Pakistan

Aug 2020 – Aug 2022

Projects

1) Project: Fashion Store E-commerce Website

Type: Personal Project

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Tailwind CSS

- Developed a fully functional e-commerce web application for a fashion store, featuring categories like jewelry, men's watches, and women's watches.
- Designed and implemented user-friendly UI with responsive layouts using React and Tailwind CSS.
- Integrated product filters, discount banners, and dynamic carousels to enhance user shopping experience.
- Built in admin dashboard to manage products, view orders and apply sales discounts using a separate discount model.
- Easily store product and order data using MongoDB with user authentication.

2) Project: Student Records Database

Type: Final Project

Tech Stack: MySQL, Power BI

- Designed a database and wrote SQL queries to filter specific student data. Imported data from Excel into MySQL for further analysis.
- Imported data into Power BI and connected it with MySQL.
- Created interactive graphs and visual reports for data analysis.

Certifications

Jan 2026 – March 2026: Database Management – NED Academy

Nov 2024 – Feb 2025: JavaScript Essentials 1 – Cisco Networking Academy

Dec 2023 – Jan 2025: Web and Mobile App Development – Saylani Mass IT Training (SMIT)

Jul 2022 – Oct 2022: Google UI/UX Certification – Google

Languages

Languages: Urdu (Native), English (Normal)
